

# A View through the Microscope: Benefits of Enhanced Vision for Dental Treatment

*Distinguished Speakers: Dr's. Yosef Nahmias, Ali Fatemi and Naheed Mohamed*

## *Lecture and Hands on Event*

*CAT 2 for all AGD members/CAT 3 for non members*

**Dr. Nahmias** was born and raised in Mexico City. After he had graduated from the Universidad Tecnologica de Mexico, School of Dentistry, in 1980 with a degree in dentistry, he decided to advance his education and chose endodontics as his specialty. He earned his Master of Science degree as an Endodontist in 1983 and has been practicing in Oakville for over 30 years.

**Dr. Fatemi** graduated in 2003 from Tabriz University in Iran and also completed his 3 year Endodontic Residency there in 2005. After graduation in 2008, he had a successful endodontic practice for 7 years. In 2014, he passed the equivalency exams of Canada for general dentistry. In 2015, he was accepted in the Dental Specialty Assessment and Training Program at the University of Toronto. Currently, he is a fellow member of the Royal college of Dentists of Canada; he is a licensed Endodontist in Ontario and is a member of the ODA.

**Dr. Naheed Mohamed** received his dental degree from Boston University and went on to complete his specialty residency in Periodontics at Case Western Reserve University. Dr. Mohamed is board certified in Canada and the United States. He holds designation as a Fellow of the Royal College of Dentist of Canada as well as a Diplomate of the American Board of Periodontology.

**COURSE DESCRIPTION:** This hands on lecture will introduce you to the advantages and use of the surgical microscope in dentistry. Magnification and illumination options will be discussed. We encourage participants to bring extracted teeth to look at these under the microscope. We will also discuss the ergonomics and proper positioning for the use of the microscope.

**RECOMMENDED MATERIALS: EXTRACTED TEETH**  
(PRE-MOLARS/MOLARS IF POSSIBLE)
